#### Identity Preserved Grain

NCC Locations will post specific dates for receiving (IP) Identity Preserved grain

#### Restricted Use Grain

Restricted (GMO) grains are subject to market discounts assessed by the grain Industry

#### Please Help Our People Operating the Scale

The use of delivery cards will be stressed this year to specifically identify the account that should be on your scale ticket. If you don't have a delivery card when delivering you could lose your position in line. Check your tickets before leaving to make sure everything is correct. Identify your last load to the scale operator.

**THESE POLICIES ARE SUBJECT TO CHANGE !!!!**
